

# **DRAFT REVENUE ENHANCEMENT PLAN 2017/18-2020/2021**

## **Table of content**

<b>Subject</b>	<b>Page number</b>
1) Table of content	1
2) Executive summary	2
3) Chapter 1: Introduction	3-4
5) Chapter 2: Status of Current Revenue Sources	5-10
6) Chapter 3: Revenue enhancement strategies	11-12
7) Chapter 4: Revenue enhancement plan 2015-2020	13-15
8) Chapter 5: Appendices	16-23

## **Executive Summary**

### **0.1 Introduction**

This Revenue Enhancement Plan 2020/21 has been produced by the Revenue Task Force sub-committee (RTF), Executive committee and sub-county officials through workshops, Seminars and meetings at the District HQ, and Sub-county. No major new issue has cropped up as the economic condition in the district has remained almost the same.

It entailed a study of the approved Revenue budgets and actual revenue collections from FY 2011/2012 to 2019/2020. The period before 2005/06, when graduated tax was the main source of local revenue to Local governments, has been phased out from the time series analysis.

Much as local revenue mobilisation and collection has continued to register a declining trend in the face of increasing demand for service delivery to the community, Sale of bid documents has remained the only reliable source to the district. Something has to be done to improve the trend. Graduated tax which used to contribute greater percentage of local revenue was replaced by graduated tax compensation by government; unfortunately this was abolished leaving local government with meagre resources. Creation of four new districts from Lira District has drastically affected local revenue base.

This document has been prepared with the deliberate intention of stimulating positive response in all stakeholders and well wishers at their various capacities at all local government levels to collectively exert greater efforts to address local revenue mobilisation and collection to meet the demand for service delivery that are not provided by the conditional grants and donor funds. Lira District Council on its part firmly commits itself to prudent financial management but expects continued support from the Central government, Donor Communities and concerned development partners.

### **0.2 Current local revenue sources**

The current sources by broad categories are:

- Property Tax
- User Charges.
- Revenue from departments.
- Other revenue sources

### **0.3 Proposed revenue enhancement strategy**

This comprises a set of policy issues which has been approved by the District council for implementation with the aim of improving revenue yield from the current sources and also from new sources to be brought on board.

- Productive tax management and advocacy
- To broaden the district revenue base by identification of new sources
- Divesting the management of some district assets to the private sector for development.
- Equitable distribution of resources
- To share development costs between the higher and lower local governments.

I finally wish to thank all the stakeholders who were involved in the preparation of the Revenue Enhancement Plan for 2020-2021 as we look forward to achieving the District objectives through all the documented activities in the plan.

PAUL SAMUEL MBIIWA

**CHIEF ADMINISTRATIVE OFFICER  
LIRA DISTRICT LOCAL GOVERNMENT**

HON ALEX OREMO ALOT

**CHAIRMAN LC V  
LIRA DISTRICT**

## CHAPTER ONE

### Introduction

#### 1.1 General background

Despite the fact that the district has a poor revenue base due to limited economic opportunities especially in the rural areas, coupled with the drastic effect of the twenty years of insecurity in the region on all socio-economic activities, revenue performance as whole has been declining though the year 2013 /2014 registered a recovery trend which ought to be maintained if not improved further.

#### 1.2 The strategy

The strategy is to continue to prudently implement key financial policy issues which have been approved by the District council and they are:

- Productive tax management and advocacy
- To broaden the district revenue base by introducing household income generating activities.
- Divesting the management of some district assets to the private sector for development.
- Equitable distribution of resources
- To share development costs between the higher and lower local governments.
- To enhance the capacity of lower local government staff, political leaders and other stakeholders involved in planning, budgeting and financial management.
- Sensitization of all stake holders on revenue sources and collection.
- Enforcement of laws and regulations governing revenue collection.
- Motivation of revenue collectors by giving rewards to best collectors.
- Strengthening internal control systems.

#### 1.3 District Objectives

- To increase revenue collection by 20%
- To strengthen financial management through training
- To improve service delivery for the development of the district.
- To ensure all available source of revenue are maximally exploited.

#### 1.4 POCC Analysis

##### Potentials

- Trained staff at both the District and Sub county levels in various technical capacities.
- Technical and financial support from the Central government and Donors.
- Availability of produce
- Availability of good roads and key infrastructures
- Availability of trading centres
- Fertile soil

##### Opportunities

- Ministry of Finance is sponsoring staff in professional courses e.g. CPA/ATC
- Emerging trading centres and town boards and town councils.
- Introduction of modern farming skills ( mechanisation )
- PPP ( Public private partnership) arrangement
- LED (Local economic development)
- New public finance management policies and guidelines on revenue management
- Sensitisation of communities in income generating skills.
- IFMS is strengthening financial management and accounting
- The use of automated database registers

##### Constraints

- Ungazatted trading centres
- Laxity in collecting arrears of revenue
- Unwillingness of revenue collectors to pay fees
- Narrow revenue base
- Financial management still weak at lower local government( poor record keeping)
- Accounts are still being prepared manually at the sub counties
- Undeveloped revenue sources
- Area land committees lack technical knowledge in handling land issues
- Political interference in revenue mobilisation and collection
- Land dispute and wrangles over government land
- Untitled or unregistered government land

### **Challenges**

- Weather changes
- Disease outbreak e.g. Covid -19, Locust,
- Excessive alcohol drinking which renders them unproductive.
- High school dropout rate due to early marriages and none payment of fees.
- Potential groups breaking up easily ( farmers group)
- Corruption.
- Plan to abolish graduated tax compensation to the districts.
- Domestic violence
- Land dispute and wrangles over government land
- Untitled or unregistered government land
- Some potential markets are operated on private land

## **1.5 Methodology for preparing the work plan**

Lira District Local Government established a Revenue Task Force committee (RTF) with the following Terms of Reference:

1. *Provision of an inventory of all sources of revenue to the local government over a period of at least five years.*
2. *Analyse the development of all sources of revenue and establish the reasons behind the performance trends. Compare these explanations with the commonly given reason by sub-counties.*
3. *Analyse the differences in revenue collection between the sub-counties and compare the amount of taxes, which is paid on average by people in the various places.*
4. *Explore the potential of the existing sources and identify their strong and weak points.*
5. *Identify possible new sources of revenue.*
6. *Describe a number of options to increase the local revenue for discussion and adaptations by the executive/full council.*

*The document on 'Best Practices' will be used as the basic resource document for the Revenue Task Force*

The RTF collaborated with relevant stakeholders (technical and political) at both the district head office and lower local governments. This was done through workshops, seminars and meetings held at

sub counties and the district head office. Resolutions from the above fora formed the essential ingredients of the work plan.

RTF started with analysis for the implementation of **Best Practices** document with reference to the terms of reference defined by the District Technical Committee. The RTF then came forward with conclusions and resolutions which it planned to share with the stakeholders. In order to have full commitment of all parties it was decided to hold a conference on local revenue to be attended by the technical staff and politicians at both the district and sub county levels so that they would own and be bound by the policy framework.

## CHAPTER TWO

### Status of current revenue sources

#### 2.1. Legal Framework

2.1.1 According to the article 152 of the constitution of the Republic of Uganda, no tax shall be imposed except under the authority of an Act of Parliament consequently; parliament passed the enabling law in form of local government act 1997 (amended).

2.1.2 Section 81 of the Local Government Act, 1997 (amended) allows Local Government to mobilise revenue in form of fees and taxes as specified in the 5<sup>th</sup> schedule.

2.1.3 Sections 31 and 32 of the Local Government Financial and Accounting Regulations 2007 provides for the authority for revenue collection and expenditure and Revenue collection responsibilities of the head of finance respectively.

2.1.4 Other laws

The local government (rating) act, 2007:

This act repeats the Local Government (rating) decree 1979. The act provide for levy of rates on property by local government within the areas of jurisdiction.

The trading licensing Act 1969: The act regulates business. Traders are required to purchase trading licences before they conduct their business within the local councils

- The Land Act
- Liquor and Enguli Act
- Forestry and Tree Planting Act & Cattle Traders Act.
- The Local Governments (Rating) Act,2007
- The Public Health Act 1964
- The Penal Code Act
- The markets Act
- Cattle Trader's Act 1964

2.1.5 Collection of Local Revenue

Section 86 of the LGA 1997 states that in the city and Municipal Councils, Revenue is to be collected by Division Councils while in the District (Rural), Revenue is to be collected by Sub County Councils. The town councils directly collect their revenues. This shows that the law permits collection on local revenue at Lower Local Government level.

#### 2.2. Current Sources of Local Revenue

The current sources by broad categories are:

- Property Tax: This comprises rents charged on residential/commercial buildings and property disposal proceeds.
- User Charges: This comprises market fees, Tender fees, Produce exit fees, Bus/taxi Park fees, Bodaboda fees, Trading Licences & Permits, Bicycle registration fees, Land ownership transfer fees, Inspection fees on buildings etc.
- Revenue from departments: This comprises of revenue collected from Production department, Prison farms, Natural Resources department, Forest resource revenues

- Other revenue sources: These include any other revenue receipts not included in the above classification.
  - Land fees
  - Market fees
  - Land registration fees
  - Park fees
  - Beer clubs and permit
  - Trading license
  - Birth and death registration
  - Local Service tax
  - Hotel tax
  - Other license

## **2.4. Constraints/Challenges on Local Revenue collection and management.**

### **1. General constraints to Revenue mobilisation and collection**

#### **a) Registration of Tax payers and their taxable assets**

- Negative political statements/pronouncements on tax payment at Central and both Higher Local government and Lower Local government levels.
- Concealing of information by tax payers
- Poor management of tax registers by parish chiefs which is not updated on a yearly basis
- Poor infrastructure i.e community access roads

#### **b) Numeration of taxable assets**

- Lack of awareness among tax payers
- Under declaration of taxable income by tax payers
- Inadequate information on taxable income
- Inadequate number of tax collectors to carry out the exercise
- Corrupt tax official during the exercise
- Lack of basic facilitation e.g. motorcycles, allowances and incentives.

#### **c) Assessment of Taxpayers**

- Poor turn up for assessment
- Poor methods of imputing the value of taxable property
- Weak audit operations which do not cover all sub-counties on a regular basis
- Lack of maintaining tax registers for reference

#### **d) Collection of revenue and enforcement**

- Negative attitude and resentment against tax payment
- Taxpayers tend to pay only when threatened at the last moment
- Failure to link tax payment to the benefits accruing from tax payment
- Intimidation of taxpayers by some politicians
- Relocation of the tax payers after the assessment exercise

### **2. Special Constraints**

#### **a) Market Fees/charges**

- Slow rate of revival of markets that were lost during the long period of insecurity
- Underdevelopment of markets e.g. they are not fenced, have no commodity stalls and lack sanitary facilities
- Interference and influence peddling in the tendering process and revenue collection by some politicians and council staff.
- Reserve rates are not properly calculated, monitored and revised regularly
- Untimely procurement of revenue collection stationery
- Problem of land ownership where the markets belongs.(wrangles)
- pirating of Local revenue receipts which leads to loss of revenue

#### **b) Trading Licences/permits**

- Trading centres that were destroyed by insecurity have not yet been fully rehabilitated
- Obsolete laws on trade
- Ignorance of trade laws
- Reproduction of illegal copies of revenue collection tools by tax payers and some revenue collectors
- Unclear government policies on natural resources( Livestock movement permit).
-

c) **Property rates**

- Unvalued property in the rural areas
- Lack of valuers to carry out valuation of property
- Lack of funds for valuation
- Public resentment to pay property tax
- Land dispute and wrangles over government property
- Court injunction on some government property
- Unclear government policies on natural resources( Royalties)

## CHAPTER THREE

### Revenue enhancement strategies

#### 3.1. Potential new revenue sources

The district has many revenue sources whose potentials are still under/not utilised. The main ones are listed below which needs to be explored. However, one single source among them that could raise big and sustainable revenue is the farm at Aler which should be considered for leasing to the private sector for development

- District farm at Aler
- Cattle markets
- Poultry markets
- All local forest resources that have now been decentralised
- The Local Hotel tax
- The Local service tax
- Divesting of Ireda Housing Estate to some revenue generating project like rentals
- Itek Okile irrigation rice scheme in Barr and Agali sub county
- Ngetta rock quarry
- Local economic development

#### 3.2. Strategies for improved collection, management & accountability

- **Trading License:**
  - Collect data for existing business in all trading centres
  - Register all businesses for licensing
  - Assess the registered businesses
  - Improve the infrastructures at trading centres
  - Establish reserve price
  - Enforce the collection by defining role and responsibilities of persons.
- **Parking Fees:**
  - Gazette parking places in all trading centres
  - Sensitise taxi operators and owners
  - Contract collection of park fees.
- **Markets:**
  - Leasing and fencing of all the markets
  - Contract price to be fully paid up by the successful bidder for the whole contract period before accessing the market.
  - Revise rate of market dues
  - Sub County chiefs to closely monitor the collection to establish the revenue potential
  - Improve on the market structures by construction of stalls, latrines, rumps, garbage skip and general sanitation etc.
  - Registration of all government markets (titling)
- **Hotel Tax:**
  - Register all the eating places in the district
  - Health inspectors to inspect and approve eating places
  - Grade the eating places according to size and potential
  - Develop reserve price
  - Contract out collection of hotel fees.

- **Poultry Markets:**
  - Registration of vendors
  - Establish fees to charge
  - Monitor collection closely
- **Reserve Price:**
  - Reserve prices for all revenue sources should only be changed with the approval of the council.
- **Forest:**
  - Revenue from forest sources that have been decentralised should be collected by the sub county.
- **Reward system:**
  - Introduce reward as appreciation for best revenue collectors

### **3.3. Social mobilisation and technical aspects of the strategy**

This is creating of community awareness on taxation. This shall cover the following areas:

- Local government budget and its financing
- The categories of persons who should pay tax
- The various taxes payable by which persons
- The various taxable assets, their valuation and assessment for tax
- The benefit of tax payment to the community (taxpayers)
- All other issues related to taxation.

This community awareness/sensitisation shall be created through: Radio talk shows, press, meetings/seminars etc.

### **3.4. Proposed monitoring and coordination mechanism**

- Update and use the inventory for all sources of revenue(Tax register)
- Regular survey of revenue centres especially markets and trading centres to enable review of rates and fees payable
- Regular verification of revenue collections at sub-counties (quarterly meetings)
- Analysis of financial reports submitted by sub-counties and giving feedback reports
- Monthly bank reconciliation.
- Calling regular meetings for sub-county staff to discuss and resolve on revenue matters( monthly revenue meetings)
- Hold meetings with contractors for revenue collection management as a development partner
- Involvement of councillors in revenue monitoring and mobilization in sub-counties.
- Regular and surprise visits to assess performance of sub-county staffs in their work places.
- Put mechanism to improve on time management.

## CHAPTER FOUR

### REVENUE ENHANCEMENT PLAN FOR 2020-2021

No	Activity	Responsibility centre	Output	Timeframe	Output indicators	Input	Est. cost	Bgt line
1	Enumeration of all income sources at s/c i.e. Markets, Forest resources, Businesses etc	S/C	Registration of taxable income source per taxpayer made available	Yearly	-No of income sources enumerated	Stationery Fuel Allowance	Sh.2,000,000@ s/c  <b>18,000,000=</b>	Local Revenue
2	Assessment of all taxpayers	S/C	All taxpayers given their assessed tax liabilities	Yearly	No of taxpayers assessed	Stationery Fuel Allowance	Sh.500,000 @ s/c  <b>4,500,000=</b>	Local Revenue
4	Sensitisation of taxpayers and the general public	Councillors, CAO,CFO,SCC	Public awareness about the importance and need to pay taxes	Yearly	No of sensitisation meetings, radio messages etc undertaken	Stationery Fuel Allowance	<b>2,500,000=</b>	Local Revenue
5	Procurement & distribution of books of accounts and revenue collection counterfoils	Dist HQ	Books of accounts, revenue collection counterfoils made available	Yearly	No of books of accounts and revenue collection counterfoils procured & distributed	Books of accounts Revenue collection counterfoils	<b>10,000,000=</b>	Local Revenue
6	Development of revenue sources: markets,/Bus & taxi stages	S/C	-Leased market plots -fenced markets -stalls markets -good sanitation at markets  -Bus/taxi stage constructed	Year 2020	-No 2 markets plots leased -No 2 markets fenced  No 2 stance Pit latrines constructed at markets  -No 1 bus/taxi stages provided	Service provider	Sh.1,500,000 @ s/c = <b>13,500,000/=</b>  Sh.5,000,000@ s/c = <b>45,000,000/=</b>  Shs.9,000,000 @s/c = <b>81,000000/=</b>  Sh.1,000,000 @ s/c = <b>9,000,000/=</b>  Total for No.9 s/c  <b>148,500,000=</b>	LDG
7	Revenue enhancement activities- workshops/seminars/meetings	Dist HQ	Revenue enhancement workshops conducted at S/C	Yearly	District & S/C Revenue Enhancement plans in place	Stationeries Allowance Fuel	<b>3,000,000=</b>	LDG
8	Verification of Revenue collection at s/c	Dist HQ	Approved revenue collected posted in Revenue books& banked	Yearly	No. of S/C whose books are verified	Allowance Fuel Stationery	<b>2,500,000=</b>	LDG
9	Preparation and submission of financial reports	Dist HQ	All financial reports submitted to relevant offices	Monthly, Quarterly, Annually	No of financial reports prepared and submitted		<b>3,000,000=</b>	LDG
	<b>TOTAL</b>						<b>157,000,000=</b>	

#### **4.2. Activity profiles for first, second and third years**

- Revenue Enhancement workshops, seminars and meetings
- Community sensitisation
- Registration of taxpayers
- Registration of rateable property
- Enumeration of taxable assets of taxpayers
- Assessment of taxpayers
- Procurement of assorted books of accounts and revenue collection counterfoils
- Revenue Enhancement workshops, meetings and seminars for Revenue collectors, councillors and other selected stakeholders
- Joint meetings with other LG on revenue issues
- Conduct tax appeals at sub-counties
- Verification, monitoring and evaluation of revenue collection at sub-counties
- Development of markets
- Preparation and submission of financial reports
- Procurement of vehicles, motorcycles and bicycles

#### **4.3. Budget Summary**

This Revenue Enhancement Plan, being the second one to be documented with the concerted efforts of the District Revenue Task Force (RTF) in collaboration with all the sub-counties. The report is however not exhaustive and a lot of future research shall continue to be done to continuously update the revenue data. It is envisaged that the update shall be produced annually in the period March-May.

The update shall embrace all important social, political and economic parameters that impact directly or indirectly on the district e.g. restoration of peace and development in the district.

### 5.1 Detailed budget for implementation of Revenue Enhancement plan 2017/2018

S/N	Activity	Responsibility centre	Output	Timeframe	Output indicators	Total Estimate
	<b>Revenue Sector</b>					<b>2017/18</b>
1	Debriefing by consultant and dissemination of property rates to the sub-counties	District/S/Cty	Property rates result received and disseminated	July-August	No. participants in attendance and sub-counties reached	3,000,000=(LR)
2	Community sensitisation on revenue issues	District/S/Cty	Sensitised community on revenue issues	July-June	No. of sensitisation meetings, Radio talk shows held	2,000,000=(LR)
3	Procurement of Books of Accounts and revenue collection counterfoils, receipts	District	Books of Accounts and Revenue Collection counterfoils	July-September	No. of books of accounts, Revenue collection counterfoils etc. procured and distributed	7,000,000 (LR)
4	Verification of Books of Accounts and monitor & evaluate revenue sites at sub-counties	District	Verified Books of Accounts and updated status of revenue sites at sub counties	July-June	No S/C whose revenue books are verified	2,488,000=(LR)
5	Leasing of 2 markets @s/c	SC	Leased market plots at S/C	July-June	No of leased market plots	13,500,000 (DDEG)
